PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in AI & Machine Learning with strong skills in Java, Python, and C++. Experienced in ML applications, DSA, and scalable software solutions. Proficient in OOP, SQL, and Git. Seeking a Specialist Programmer role to leverage technical expertise and contribute to innovative, high-performance software development.

EDUCATION

VIT Bhopal University <i>B.Tech in Computer Science Engineering (Specialization in AI&ML)</i> — CGPA: 8.59	Sep 2023 – May 2027
Greenland Public School <i>CBSE</i> — Class XII: 77.4% — Class X: 95.4%	Apr 2021 – Apr 2023

TECHNICAL SKILLS

Languages: Java, C++, Python
Databases: PostgreSQL, Firebase (Firestore, Realtime DB), SQL
ML Techniques: K-Means Clustering, PCA, Linear/Logistic Regression, Decision Trees
Tools & Cloud: Git, GitHub, VS Code, Jupyter Notebook
Libraries: Pandas, Matplotlib, Scikit-learn, NumPy, PyTorch, TensorFlow
Core CS: Data Structures and Algorithms, Computer Networks, Machine Learning, OOPs

PROJECTS

Image Compression Model – K-Means Clustering Approach GitHub	2025
- Achieved up to 90% reduction in image size with minimal perceptible quality loss. - Implemented K-Means clustering for optimal colour quantization and efficient pixel grouping. - Developed solution suitable for web platforms, storage optimization, and faster image transmission without heavy computational requirements, saving storage space.	
One Solution – Home Services Web Application GitHub Live Link	2025 – 2026
- Built a full-stack web application offering on-demand home services with a focus on connecting local workers to customers. - Enabled users to book local professionals such as carpenters, plumbers, electricians, and more. - Developed responsive and user-friendly interface using JavaScript, CSS, and HTML.	
GrabKrt – Founder (Personal Startup) <i>Business Analyst</i>	2025 – Present
Led non-technical operations for a pan-India e-commerce venture, focusing on vendor onboarding, market research, and customer-facing outreach while coordinating closely with the technical co-founder on product priorities.	

CO-CURRICULAR ACTIVITIES & LEADERSHIP

PR & Outreach Member, Linux Club — VIT Bhopal University	April 2024 – Sep 2024
Contacted guests and served as a key organizer for sponsors for the club during the university's flagship fest.	
Event Management, Pahadi Club — VIT Bhopal University	
Supported in managing events smoothly and conducting necessary outreach to individuals.	
Volunteer, NSS Unit — VIT Bhopal University	
- Worked as a volunteer in a blood donation camp, managing crowds and donors for smooth event functioning. - Contributed to a plantation drive of 10,000 saplings toward environmental conservation, executing responsibilities smoothly as part of the discipline team.	

HACKATHONS

HackShastra Hackathon (Unstop) — Designed and prototyped a software solution in a timed online hackathon.	<i>Participant</i>
CyberShield Hackathon (VIT Bhopal) — Built security-focused solutions in a university-level hackathon.	<i>Participant</i>
Sandisk Hackathon (HackerEarth) — Worked on a simple image detection idea.	<i>Participant</i>

CERTIFICATIONS

NPTEL Cloud Computing – Elite Certificate (IIT Kharagpur)
Applied Machine Learning in Python – University of Michigan
